

## First and Second Class Knitting February 2015

For the next four weeks the sound of clicking and clacking will be heard emerging from First and Second Class as they are busily learning to knit.

The children have embraced their needles and wool with great enthusiasm and are making progress already under the watchful eyes of the grannies and mothers who have kindly volunteered to help out during the knitting sessions.

Once the basics have been mastered - and a couple of wrist bands produced - we are hoping to take on more ambitious projects!
